Title/ Topic:

List any vocabulary words that are not clearly defined in the text.

Are there any key concepts that you think are missing and should be added?

Does it seem as if this has been written in the author's own words? If no what part do you think needs to be fixed.

What part or parts are most confusing or could use some additional clarification and why?

What are some things that you particularly liked from this text?

Are there any sections that need more detail or explanation? What are they?
